

Chao-Ton Su (蘇朝墩)

Chair Professor

Ph.D., University of Missouri-Columbia, U.S.A., 1993

Quality Engineering and Management,

Operation Management, Data Mining and its Applications

E-mail: ctsu@mx.nthu.edu.tw

Chao-Ton Su is Chair Professor of Department of Industrial Engineering and Engineering Management at National Tsing Hua University, Hsinchu, Taiwan. Dr. Su received his Ph.D. degree in Industrial Engineering (1993) from the University of Missouri, Columbia, USA. Prior to that, he gained industrial experience working for Yung Kuang Hwa Metal Co., Ltd. (1981-1982) and OAK Far East Electronics Inc (1984). Later, he held a full-time faculty position at National Chiao Tung University (instructor, 1985-1993; associate professor, 1994-1998; professor, 1998-2004), Hsinchu, Taiwan, and was a visiting professor at Tokyo University of Science (2003) and University of Missouri-Columbia (2012). Dr. Su is an Academician of the International Academy for Quality. He is a senior member of the American Society for Quality and a member of the Institute of Industrial Engineers and the Chinese Institute of Industrial Engineers. Dr. Su is the founder and served as a former chairman (2003-2005) of the Chinese Society for Six Sigma. He is also a member (2002-2012) of Taiwan National Quality Award Review Group. Dr. Su's awards include the Fulbright Senior Scholar Award from J. William Fulbright Foreign Scholarship Board, USA (2012), the Outstanding Industrial Engineer Award (2010) from Chinese Institute of Industrial Engineers, the Distinguished Research Award (2000–2001, 2002–2005 and 2012-2015) from the National Science Council (Taiwan), the Individual Award of the Taiwan National Quality Award (2001), the Individual Quality Award (2000) from Chinese Society for Quality, and the best paper awards from ANQ Congress (2006, 2008), Chinese Society for Quality (2000, 2010, 2012), and Chinese Institute of Industrial Engineers (2007). He also received a distinguished teaching award (2008) from the College of Engineering, National Tsing Hua University, Taiwan. The results of his research have been published in numerous academic journal papers and presented at a variety of national and international conferences. His current research interests include quality engineering and management, operation management, and data mining and its applications.
