General Information Of Matagalpa

Spot INTUR Matagalpa, Jinotega, Esteli

Matagalpa is located 65 km from the capital, and has a fairly rugged topography . It is located in the highlands of central Nicaragua , near Jinotega.

Matagalpa is located in an area surrounded by irregular mountains, with an elevation of 700 meters above sea level with an existing tropical climate in the plains of the Pacific. His constant rains allow a very eco green vegetation.

It is one of the most geographically extensive and populous Nicaragua Departments . The Central Park and Dario Park , near the northern cuisine , the sarandio , molles and

2-Hotel Booking:

- Today in Nicaragua there are few websites that have reservation services, making it more difficult for tourists looking for places where you can stay during your stay in different cities and towns.
- This initiative is a very important service to the not only aim to help tourists to find places to stay, but also to help the website to serve all those hostels and hotels that do not have the ability to make their own website.

The screenshot shows a web interface for finding accommodations. At the top, there is a navigation menu with links: Home, Departments, Book, and About Us. Below this is a search bar with the text 'Search for hotels' and a dropdown menu showing 'Region: Granada'. A 'Search' button is located below the search bar. The results section displays '3 hotels found | prices below are double room prices (min/max during low season)'. Below this, there are three hotel listings, each with a small image, the hotel name, location, and price range.

Hostal San Ángel	Granada	\$28.00

SEARCH ENGINE

- We have also added to this website a search engine that will allow tourists to access an easy search of directions, as in Nicaragua (as in much Latin American countries) the local population uses benchmarks which are not very efficient for tourists because they tend to get lost easily.
