摘 要	
<u>Objective:</u> GO-NICARAGUA is a website that was created to satiate all the necessities of the tourist, where the user can find all the information about touristic places, book hostels and hotels, etc. <u>Services:</u> GO-NICARAGUA will offer a several types of services, where the user can make searches about touristic places, and besides the website will provide the different ways and transportation to get to the places where tourists want to go likewise. The website includes several offers from hostels and hotels which will be very convenient for the user. On other hand, we also want to make a kind of strategic alliance with several tourism agencies who want to offer their service in our page. <u>How the website works:</u> When a user would like to search for places, hostels or another kind of service, the website will be able to provide the most specific information about it. Besides, when the user wants to book and search places, the website will be transported to our search engine “trochanica.com.ni”, which was designed specifically to look for anything related Nicaragua. Likewise, the website will be divided by cities which will facilitate the searches from the user.
